SUMMARY

Results-driven Frontend Developer with expertise in building modern, responsive, and high-performance web applications using React.js, Next.js, TypeScript, JavaScript, HTML, CSS, and Tailwind CSS. Proven ability to transform complex design requirements into seamless user experiences while maintaining accessibility, scalability, and code quality standards.

Experienced in developing reusable component libraries, integrating APIs, optimizing application performance, and collaborating within Agile development teams to deliver impactful digital products. Passionate about frontend architecture, UI/UX excellence, and leveraging modern web technologies to create engaging and efficient user experiences.

SKILLS AND EXPERTISE

- **Frontend:** HTML5, CSS3, JavaScript (ES6+), Typescript, React, Next.js, Angular, RxJS, NgRx, Solid.js, Redux, Tailwind CSS
- **Version Control:** GitHub, GitLab, and Bitbucket.
- **Soft Skills:** Communication, Problem-Solving, Team Player, Time Management, Project Management, Leadership

PROFESSIONAL EXPERIENCE

Bertandre Consulting Frontend Developer

Hybrid, Lagos | Jan 2026 - June 2026

- Managed application state using [Redux/Zustand/React Query], reducing unnecessary re-renders and improving UI responsiveness
- Collaborated with product team, ui/ux designers and the backend throughout the development lifecycle, conducting design reviews.
- Translated Figma designs into pixel-perfect, responsive web interfaces using Next.js and TypeScript,
- Leveraged modern frontend tools and libraries such as React Hooks, Context API, and state management frameworks to build scalable and maintainable applications.
- Contributed to technical architecture discussions, feature estimation, and solution design to support long-term product scalability and development efficiency.
- Created and maintained technical documentation, onboarding guides, and development standards to improve team productivity and knowledge sharing.
- Monitored and analyzed application performance metrics, proactively identifying bottlenecks and implementing improvements to enhance system reliability.
- Developed responsive layouts and cross-browser compatible interfaces that delivered a consistent experience across desktop, tablet, and mobile devices.

MedFair Frontend Engineer

Remote, Lagos | June 2025 - Dec 2025

- Converted Figma design mockups into responsive, pixel-perfect web interfaces using Next.js and Typescript.
- Developed and maintained reusable component libraries to ensure design consistency and accelerate development cycles
- Collaborated closely with product designers throughout the development lifecycle to ensure design fidelity and optimal user experience
- Served as primary technical liaison between internal development team and external partner organizations to facilitate seamless platform integrations
- Participated in sprint planning, daily standups, and retrospectives using Agile/Scrum methodologies
- Optimized application performance through code refactoring, resulting in improved load times and user experience
- Implemented version control workflows using Git, ensuring smooth collaboration and code management across the development team
- Debugged and resolved technical issues to improve application stability and performance

Ventekk Inc.

Remote, Lagos | April 2024 - Sept 2025

Frontend Engineer

- Transformed design mockups into high-quality, responsive frontend components, optimizing performance with JavaScript, TypeScript, Next, React, Redux Toolkit, and CSS Modules.
- Played a key role in developing an upgraded version of the company's software, leading to a significantly improved user experience and increased revenue within 6 months.
- Collaborated closely with stakeholders and designers to translate requirements into effective software solutions, leveraging Figma for design collaboration and JIRA for project management.
- Utilized testing tools like Jest, React Testing Library, and Cypress to ensure high code quality, maintainability, and user satisfaction.
- Streamlined development and deployment processes via GitHub and CI/CD pipelines, enhancing efficiency and business outcomes.

Rentals

Remote, Lagos | Mar 2023 - Mar 2024

Frontend Developer

- My core focus is on creating an exceptional user experience by building intuitive and visually appealing interfaces that make the application easy to use.
- I work diligently to optimize the frontend app to ensure quick loading times, and enhance responsiveness, and overall performance to provide a seamless user experience.
- Transformed design mockups into high-quality, responsive frontend components, optimizing performance with JavaScript, TypeScript, Solid.js, Redux Toolkit, and Styled components.
- I utilize my expertise in frontend development to craft clean, concise, and maintainable code that adheres to best practices, industry standards, and guidelines.
- Collaborating with my team, I actively participate in code reviews, providing feedback that focuses on enhancing code quality, maintainability, and scalability.

Reboost

Remote, London | Oct 2022 - Mar 2023

Frontend Engineer

- Developed intuitive and visually appealing user interfaces for web applications using React.js and Next.js.
- Collaborated closely with UI/UX designers and backend developers to ensure seamless integration and functionality.
- Provided technical support, managed software deployments, ensured system security, and maintained network infrastructure across various platforms to support operations.
- Optimized the frontend application for quick loading, responsiveness, and a smooth user experience.
- Actively engaged with stakeholders to incorporate feedback and refine the development process.
- Optimize the website to increase performance.

EDUCATION

ALTSCHOOL AFRICA

Diploma, Software Engineering

Austin, Texas

2022

Zero to Mastery Academy

Frontend Development

U.S.A

JOSEPH AYO BABALOLA UNIVERSITY

B.sc Business Administration

Osun State, Nigeria

2017

CERTIFICATIONS

- Software Development Certificate – ALTSCHOOL AFRICA ([Certificate Link](#))
- Andela React Learning Program Certificate ([Certificate ink](#))
- Google Digital Skills for Africa ([Certificate Link](#))
